## **SAFETY**

A strong willed drive to continuously improve safety implementation at work sites, keep incident indices to well below the industry indices. Our well constituted safety policy and rules shows right direction to every individual in the company. Management sees each minor incident also as a scope for improvement in the safety norms imbibed in the policy. Safety standard in the company is motivational rather than punitive which needs constant supervision and enforcement.

As a Safety culture of the company, all workers are provided with necessary PPE (Personal Protective Equipment) and with the training to adhere to standard safety norms and rules.

Competent safety officers organize motivational programs.

## **MACHINERY**
